

# ITIDMS 2023

International Scientific and Practical Conference "Information Technologies and Intelligent Decision Making Systems"

<https://www.itidms.net/>  
December 12th-14th, 2023  
Qingdao, China

## In Virtual Mode

The goal of ITIDMS-23 is to provide an overview of the global experience in information, digital, and intellectual development. It is intended to serve as a framework for developing proposals for information and digital transformation, computer model development, information technology, automated processes, and computational processes. In particular, It requests full articles and abstracts from researchers that present cutting-edge developments in the application of information and intelligence techniques to practical, innovative, and applicable challenges. Russian, Chinese, and other scientists from research and educational institutions, as well as representatives from many fields of endeavor and enterprises, make up the international program and organizing committee. Invited talks from leading individuals in regarding communities will cover the state-of-the-art techniques and set the stage for this conference. Accepted and presented papers will be published in Springer CCIS Series, which will be submitted to **SCOPUS**, **Ei Compendex (CPX)**, Google Scholar, **ISI Proceedings**, etc. for indexing.

### CALL FOR PAPER AND TOPICS

Computer modeling, neural network software, data processing and information systems;

Information systems foundations, system administration;

Computational intelligence and data mining;

Cybernetics and organization of the production process;

Intelligent, digital and automated systems and technologies;

Predictive modeling;

Intelligent and digital technologies and systems

For more topics  
<https://www.itidms.net/CFP/>

### CONTACT

Mr. Juliano Lee  
Tel: +86-17561655347 Email: [itidms@etdis.org](mailto:itidms@etdis.org)

### IMPORTANT DATES

Submissions Deadline	Sep. 30th, 2023
Conference Date	Dec. 12th-14th, 2023

### SUBMISSION INSTRUCTIONS

All submissions (full-paper and abstract) should be original (not submitted/published anywhere else) and typeset following the standard of template in English. Accepted papers and abstracts will be scheduled in lecture and poster sessions.

- 1). Full paper (publication & presentation). Full paper submission is required if you consider publishing your paper.
- 2). Abstract (presentation only). If you consider making a presentation only at ITIDMS 2023 without paper publication, then you can only submit an abstract.

[Submission System](#)

### PROCEEDINGS

Springer CCIS Series\_Communications in Computer and Information Science eISSN 1865-0937

### SPONSORS AND ORGANIZERS
